The bride is an exceedingly popular young lady. She has lived in Cairo most of her life and has won hosts of friends by her pleasant manner and cheerful disposition.

Mr. Mechem is also well known here. He holds a responsible position with the Woodward Hardware company and has many friends who will wish him and the girl of his choice a life of great happiness.

## A SURPRISE WEDDING.

A wedding, the announcement of which came as a complete surprise to the friends of the groom in this city, was solemnized at Franklin, Tenn., Monday evening at 7:30 o'clock when Miss Bertha Lee Vaughan, of Columbia, Tenn., and Mr. S. J. Stockard, managing editor of The Bulletin, were united in the holy bonds of wedlock, Rev. W. J. McMillan officiating.

Mr. Stockard left Cairo early Monday morning, ostensibly on a business trip to his former home, Columbia, Tenn. He did not go to Columbia, however, but instead went to Franklin, where he met Miss Vaughan who, by prearrangement, was visiting her cousin, Mrs. Owen Walker, and it was at her residence that the nuptial knot was tied. The bride's parents were opposed to their daughter's marriage, on the ground that she was too young, she being just 15 years old, and they knew nothing of the wedding until after being notified by telegraph a short time after.

Mr. and Mrs. Stockard arrived in Cairo yesterday and are stopping at The Halliday.

## GOOD SHOWING

MADE BY THE CAIRO POSTOFFICE  
—MAY ATTAIN TO FIRST CLASS BY MARCH 30.

Postmaster Sidney B. Miller and Assistant Postmaster E. L. Reno have completed reports of the business done at the Cairo postoffice for the quarter ending Sept. 30, and the showing is most gratifying. The Cairo postoffice is now in the second class, but if the business continues to increase at the same rate during the remaining quarters ending March 30, 1905, as it has the past two quarters the office will be placed in the first class.

The increase in stamp sales for the quarter ending Sept. 30, is shown by the following figures furnished by Assistant Reno:

1900	\$6,484.25
1901	7,526.56
1902	7,863.28
1903	8,467.51
1904	9,655.50

The receipts of an office must be \$40,000 per year before it will be admitted to the first class. Last year they were \$36,587.66 and in all probability the \$40,000 mark will be reached at the expiration of the fiscal year, March 30.

## FROST TONIGHT

OVERCOATS AND BLANKETS WILL BE IN DEMAND—DELICATE PLANTS MAY BE NIPPED.

Weather Forecaster Smith stated last night that the indications were that light frost would tonight.

The thermometer at The Bulletin office registered 36 degrees this morning at 7 o'clock, a fall of seven degrees since 7 o'clock last night. This thermometer is thoroughly reliable, having been tested by Forecaster Smith, and the readings compared with those at the weather bureau.

Overcoats will soon be as popular as shirt waists were a few days ago, and blankets will take the place of the window screen or sheet. The festive mosquitoes and pesky fly will be things of the summer past and hot chocolate, oysters and bon-bone will have their season of popularity, instead of the ice-cream soda, ear rinds and frappe.

The delicate plants which have flourished in the summer sunshine and showers will now be housed up.

free from Jack Frost's bite and winter's chill. And yet winter has scarcely sent his season's greeting.

## WOMAN'S CLUB

HELD FIRST MEETING OF THE SEASON AT LIBRARY HALL YESTERDAY AFTERNOON.

The opening meeting of the Woman's club was held yesterday afternoon in the club rooms. After the summer vacation the members seemed glad to meet again and the time before the business meeting was given over to exchange of greetings.

A large amount of business, which had accumulated during the summer, was transacted and several matters of importance were decided.

It was agreed to purchase for the club a suitable piece of statuary to be placed in the lower hall of the library. This is to be gotten from the Louisiana Purchase exposition and is to be a memento of the fair, such as is the bust of Columbus purchased by the club from the World's fair in Chicago. Mrs. John A. Miller is chairman of the purchasing committee and has made several visits to the fair with this purchase in mind.

Mrs. Lohr, the president, presented to the club a beautiful bronze replica of the memorial tablet given by the General Federation of Woman's clubs at the biennial meeting in St. Louis in May, to that city. The inscription on the tablet is as follows: "Presented to the city of St. Louis by the General Federation of Woman's clubs in commemoration of the acquisition of the Louisiana territory."

The relief in the center of the classic tablet illustrates the inscription, depicting the westward march of the early settlers, led by the spirit of civilization. The tablet is of bronze, three feet wide by five feet high, and will be permanently located in a prominent place on the walls of the art palace. It is the work of George Julian Zolnay, the sculptor.

The replica given by Mrs. Lohr is a fine copy of the original and will be placed in a prominent position in the club rooms. In presenting her gift Mrs. Lohr described the beautiful scene in the festival hall of the exposition when the tablet was given by Mrs. Dimble Denison, the president of the federation to the city of St. Louis and received by President D. A. Francis.

Mrs. P. A. Taylor, the chairman of the educational department, presided during the exercises given by that department. Interesting papers pertaining to the Louisiana purchase were read by Mrs. Dewey and Mrs. Wenger. The club adjourned to meet October 12th with the program in charge of the philanthropy department.

## RAILROAD NEWS

St. Louis-Chicago Speed War. President Davidson of the Frisco Eastern Illinois yesterday explained his position on the threatened claim for a differential for the Chicago-St. Louis line. "I do not desire to place the Eastern Illinois in the differential class," he said, "for we have a line that is practically as short as any line and a double track. Much of our track is new, but when it gets settled we will be in a better position to lead the Chicago-St. Louis lines than to follow them. In the meantime I see no demand for faster schedules and for the breaking of the speed agreement between the two cities. If the Alton and the Wabash look at the matter differently and I see that the Eastern Illinois interests are injured, I shall demand the privilege of a lower rate for the trains affected. When, however, we are in the full enjoyment of our line we shall be in position to meet everything and shall claim no differential."

Miss Helen Gould's Tour. Miss Helen Gould, who is interested in the Young Men's Christian association work along the Gould lines in the southwest, has invited International Secretaries C. J. Hicks and W. E. Lougee, with their wives, to join her in a tour of inspection in the west and southwest. By invitation of Vice President R. D. Caldwell of the Lackawanna, the party started over that road, stopping at Scranton, where a reception was given by the railroad association under the direction of Secretary Adir. The first association point visited on the Gould lines will be Peru, Ind., on the Wabash. The party is scheduled to reach St. Louis on the twenty-fifth, stopping at every association point on the way. At each there will be opportunities for the railroad men and their families to meet Miss Gould at receptions in the buildings. Through the generosity of Miss Gould, the associations on the Gould lines have special gifts for the furnishing of the buildings and libraries.
